EDUCATION

Kenyon College '2026

Bachelor of Arts Economics | Minors: Statistics, French | GPA: 3.67 / 4.00

Relevant Coursework: Econometrics, Nonparametric Statistics, Bayesian Statistics, Data Analysis, Software and System Design

RELEVANT EXPERIENCE

Langar Holdings, Inc. Feb 2026–Present

AI Workflow Intern — Remote

- Created production-grade AI automation systems for a HealthTech-focused asset management firm, saving 30 minutes of operational time per day
- Built Newsletter Ingestor from scratch: ingests dozens of newsletters from email and surfaces live market updates and relevant topics for the investment team
- Designed and connected AI-Native CRM pipeline: Granola call transcriptions auto-ingest into CRM; LLM extracts insights, suggests follow-ups, and pre-populates tailored email drafts in Outlook with delivery tracking

Polymarket Data Pipeline Fall 2025

Independent Study Project — Kenyon College, Gambier, OH

- Scraped live granular time-series trade data from Polymarket on an AWS t3.small instance for quantitative analysis resulting in 35 page paper

Research Assistant May–Aug 2025

Department of Economics — Kenyon College, Gambier, OH

- Used Stata and Python to clean and transform raw scanner data into price relatives
- Analyzed Nielsen scanner data across hundreds of millions of transactions to construct grocery inflation metrics by income group; leveraged Claude Code and Cursor to accelerate data processing and analysis

ADDITIONAL EXPERIENCE

Economics Tutor Jan 2025–Present

Kenyon College, Gambier, OH

- Selected by professor for paid role; supporting 200-level economics coursework for sophomores, juniors, and seniors

Club Ultimate Frisbee Treasurer Aug 2024–Present

Kenyon College, Gambier, OH

- Generated ~\$1,000/semester in revenue through branded merchandise sales via a local vendor and student pop-up events
